

ELECTRONIC FLASH UNITS FOR HAND CAMERAS

The "DUAL" becomes a 4-WAY by adding an intensifier!

**MODEL 225-SUN-LITE "POWERHOUSE" PORTABLE . . .****Complete with Power Pack and Flash Head**

More than 1,000 flashes from one set of batteries . . . with the new Sunflexor. Power pack weighs less than five pounds . . . flash head no more than conventional flash guns. Flash duration 1/1000th. Color guide 35 to 50, 70 to 80 with new Ektachrome, black and white 150 to 300. For X or O delay shutters.

Complete with Standard L Bracket, less batteries.

No. 5240-A (W/34) Model 225 SUN-LITE FLASH . . . \$79.50

No. 5243-A (W) Set of batteries for above . . . \$11.50

SUN-LITE A-C ADAPTER FOR 110 VOLT AC.

For recharging condensers and for those who want A-C operation in addition to the portable battery pack operation. Ideal for use with one or more Extension Lights to conserve batteries. Flash head plugs into A-C Adapter instead of Battery Pack. Guide no.'s etc. as above. Complete with 15-foot cord to A-C Outlet and 6 foot cord to Attach to Flash Head.

No. 5241-AA (W/34) SunLite A.C. Adapter . . . \$17.50

MODEL 110 — SUN-LITE II A-C OUTFIT

Complete Flash with A-C Power Source.

Same flash head as above, with same light output and guide numbers. For indoor or studio use, the cost per flash is so little it can scarcely be measured. A-C power source, no bigger than your fist, comes complete with 15 foot power cord. Guide numbers, etc., like Model 225. Complete with Standard L Bracket.

No. 5242-AA (W/34) Sun-Lite II AC Outfit . . . \$62.50

POWER-BOOSTING EXTENSION LIGHT

Has light output equal to Sun-Lite head. Does not cut light output of each head in half, like other extension cords. Also acts as booster for main flash if extension's flash tube is removed, doubling output of main light. Attaches to side fitting of Model 225 or 110 flash head. Has 15-foot cord.

No. 5244-A (W/34) POWER BOOSTER EXTENSION LIGHT . . . \$49.50

SHUTTER CORDS — See page 136.**SUN - RING ADAPTER CORD**

Adapts Model 225 or Model 110 for use as Sun-Ring power supply.

No. 5245-A (W/34) SF-2 ADAPTER . . . \$2.95

ONE - PIECE HEILAND FUTURAMIC II

Successor to the famous Strobosar 64B, the all new Futuramic II is lighter, more compact than any flash unit you have ever seen. Completely self-contained, its just 9 1/2 inch high, weighs only 28 ounces, complete with batteries.

You get the convenience of choosing the power source that best fits your needs — nickel-cadmium "C" cells, E-93 Energizer cells, photo-flash "C" cells, or household current. The 1/1500 sec. flash duration freezes action and gives you the sharpest, clearest pictures you've ever taken, while the new color-corrected lens gives your color pictures a warm, natural quality that's flattering to your subject.

Sample guide No. — With ASA 100 Kodachrome, f/2.8 at 13 feet.

No. 5250-A (T) FUTURAMIC II, including 10 ft. AC cord less battery . . . \$50.00

No. 5255-A (T) FUTURAMIC II, including 10 ft. AC cord less battery . . . \$69.95

No. 5256-A (T) FUTURAMIC II SET, incl. flashgun, folding bracket, 3 E-93 batteries, shutter cord, spare battery tray . . . \$89.95

No. 5257-A (T) Strobosar P65c, for Polacolor . . . \$79.95

No. 5252-A (T) ACCESSORY KIT — Incl. close-up flash lens, wide-angle flash lens and bounce adapter with case . . . \$9.95

No. 5253-A (T) NICKEL CADMIUM "C" SIZE BATTERIES. Set of 3 . . . \$14.85

No. 5254-A (T) CHARGER FOR CELLS ABOVE. Charges cells above, without your removing them from your Futuramic II . . . \$9.95

SHUTTER CORDS — See page 136.

BOOSTED VOLTAGE QUARTZ-KING FOR GRAPHIC ARTS

Quartz-iodine lamps with voltage boosters for copy boards, display and other high-intensity needs are shown on page 34. Converters and boosters listed on this page may be used.

and model of your camera and stand.

RECHARGEABLE BATTERIES - NICKEL-CADMIUM**LAST INDEFINITELY — CANNOT LEAK!****(A) Replaces 2 "D" Size Cells —**

Outlast hundreds of standard flashlight batteries. Fits any flash unit strobe, flashlight, etc., using two "D" size cells end-to-end, or any number of two-cell combinations. Built-in charger in each cartridge. Just plug into 110 v. AC. outlet to recharge. Can't overcharge.

On 16 hour charge, will yield 500 MA. without significant voltage drop for 90 minutes, or 300 MA. for three hours.

No. 5224-AA (V)—SONOTONE #C-3 Heavy Duty Rechargeable Battery in pairs with plug for recharging . . . \$11.95

(B) Replaces Individual "D" Size Cell —

Long lasting like above. Same size as standard "D" flashlight battery, replaces it in all jobs. Recharge overnight, using charger below (not incl.) Cannot be overcharged. Use these where odd number of cells is required, or where separate cells are preferred.

No. 5268-A (T) Heavy Duty "D" Size Nickel-Cadmium Battery, Each. . . . \$9.25

No. 5269-A (T) Light-Duty "D" Size Nickel-Cadmium Batteries, Each. . . . \$5.00

CHARGER FOR "D" SIZE NICKEL-CADMIUM BATTERIES

Holds up to 4 at one time.

Dummy cell furnished for charging only three cells. 115 v. AC. operation. Pilot light.

No. 5220-A (T) HEILAND CHARGER . . . \$15.95
